

RC 639672

Ringardas Nigeria is committed to providing and maintaining safe, incident free and conducive atmosphere for our workplaces which is enshrined in our health, safety and environmental responsibilities as a fundamental share of our services and processes.

We comply with all national statutory laws and regulations on health safety and environment by providing standard health medical management services to our employees/families and continually engage them in communication through various medium and safety awareness via training programs and provision of required safety gadgets/equipments in work places in order to enhance safety consciousness.

Participation is key ingredient to the success of our management system as we equally enlist support of our employees in improving the company's operational performances. We focus on improving our work procedures through employees' training, proactive inspections/audits and emergency management plans in order to continually improve our operational competences.

We are committed to making our work environment free of occupational injuries as accidents prevention is our priority by identifying, safeguarding, mitigating and whenever possible eliminating job related hazards.

We are continually committed to enhancing product delivery with insignificant adverse effect on our environment, safety and health of our employees and other stakeholders. Our storage facilities, plants/equipments and fleet of trucks for logistics/transportation are managed according to international standards that has continually kept us on business excellence.

We are very much committed to conservation of our environment and its protection by regularly measuring and monitoring any effect on environment, minimizing waste generation and contamination of environment.

Signed

Philippe Goron

Managing Director
